WORK EXPERIENCE

Agmo Artisan Sdn. Bhd.

Frontend Web Developer Intern

Kuala Lumpur, Federal Territory of Kuala Lumpur

Oct 2025 – Jan 2026

- Leveraged **Agile/Scrum** methodologies to resolve **15+ high-priority Jira tickets** within 2 months, successfully shipping frontend sub-features and debugging issues.
- Translated complex Figma designs into **responsive, pixel-perfect web components** using **Next.js** and **Tailwind CSS**, ensuring cross-platform UI consistency and optimal user experience.
- Engineered custom **Selenium automation scripts** to streamline repetitive tasks, while contributing to **Laravel** backend codebases to accelerate project delivery.

Treehole Story Enterprise

Freelance Frontend Web Developer

Remote

Jan 2025 – Feb 2025

- Developed interactive and responsive UI sections from designer mockups using **Next.js** and **Tailwind CSS**, optimizing for seamless desktop and mobile viewports.
- Identified and resolved rendering bugs and layout discrepancies, reducing visual inconsistency across devices.
- Implemented fluid custom web animations to elevate platform aesthetics.

KEY PROJECTS

Acadia – Fullstack Web & Mobile Augmented Reality (AR) Digital Solution (Final Year Project)

- Architected a full-stack, cross-platform ecosystem bridging a **Nuxt.js (Vue.js)** web application with a Unity mobile companion app, using **PostgreSQL via Supabase** for centralized data management.
- Engineered real-time data pipelines allowing a mobile AR app built with **Unity (C#)** and **Vuforia Engine** to dynamically stream and manipulate 3D visual assets on the desktop web interface.
- Designed relational data models to securely manage user authentication, session management, and synchronized states.
- Repositories:** github.com/AmIWhatIAm/acadia-web | github.com/AmIWhatIAm/acadia-ar-companion

TECHNICAL SKILLS

Frontend Web: Next.js, React.js, Nuxt.js, Vue.js, Tailwind CSS, Shadcn/ui, HTML5/CSS3

Backend & APIs: Node.js, Laravel (PHP), RESTful APIs
